

Oxford City Branch Hugh's News

Produced fortnightly by Paul and Hugh, with contributions from other ringers.

Monday 18th June 2012

Iffley, Marston and Headington ringers thoughtfully scheduled their ringing for the Jubilee Service of Thanksgiving at different times so Roy and I were able to attend all three – even if it was pouring with rain! The Marston ringers also rang on the Monday afternoon to mark the lighting of one of the 4000 plus beacons across the world at the Red Lion pub, an event which attracted an enormous crowd. By all accounts the various City Branch towers all made a contribution to the Jubilee celebrations at some point across the weekend. *Hugh Deam.*

Margaret Marsh attended the ANZAB Festival in Sydney N.S.W. (8th - 11th June 2012)

I have just taken part in the ANZAB Festival where we celebrated the 50th anniversary of the Australian and New Zealand Association of Bellringers. 142 participants registered and there was a joyous atmosphere as ringers greeted each other again after traveling vast distances across Australia, and overseas from New Zealand and the UK. For many, due to isolation, there are no opportunities to meet other ringers and to gain experience in towers other than their local one. The Festival was 18 months in the planning. Organizers produced a very full programme over the three days - 13 quarter peals were attempted -11 successfully. And a very full programme of ringing sessions in 11 greater Sydney towers, and four pre-festival day bus tours to country NSW centres of Goulburn, Bathurst, Orange, Lithgow, Castlereagh, Menangle, Singleton and Maitland. There were hand bell ringing sessions, a striking competition, many morning and afternoon teas, lunches and the excellent Festival dinner, the Annual General Meeting as well as high quality merchandise on offer. Many took the opportunity to ring for the Sunday services at the two Cathedrals, St Mary's and St Andrew's, and the many

towers in Sydney. At the 8.15am service ring on Sunday morning, 25 ringers turned up at my local church. ANZAB is a thriving and enthusiastic bell ringing community who are forward looking, proactive, well organized and ambitious to establish new rings to facilitate tower restorations and set up teaching facilities. *Congratulations to the organizing committee for their excellent efforts! 6 bell Practice at Charlton on Otmoor (6) 14cwt.

Charlton on Otmoor is undoubtedly one of those 'special' villages, surrounded as it is by one of England's few remaining substantial areas of remote wetland, with the River Ray reverting to flowing backwards in particularly wet weather. There has been a church in the village since the 11th century, with the present building being a 13th century replacement for the original. The church was particularly decorative as the Jubilee adornments were still in place. The bells here are a very fine set indeed, which although quite heavy, move particularly fluently, thus allowing us to ring Cambridge, Norwich and Oxford amongst other methods. *Hugh Deam.*
